

The Gypsy Caravan

Covid 19 Protocols

1. I will be wearing a face mask at all times, throughout all interactions.
2. I will make use of gloves to avoid coming into direct contact with anything and anyone. I also have available in my kit 85% Isopropyl alcohol to sanitize my hands, gloves and that of all the models/actors.
3. Available in my kit is 85% Isopropyl alcohol sprays and surface wipes to sanitize my work area, makeup products and brushes.
4. I have three full sets of brushes (one set per model/actor) to avoid cross contamination. I have also have available in my kit, Ziplock bags, to place used brushes and products in so that should I need to do touch ups, that same model/actor will have their own "touch up kit" to prevent cross contamination.
5. Should I need to use the same brush more than once on different models I have specific Alcohol Solution to sanitize and clean my brushes - this has a 70% Isopropyl & Ethanol Content.
6. I have disposable applicators available in my kit to prevent mascara wands and lip wands touching models/actors directly. Double dipping in products will also be avoided with said disposables.
7. I have available in my kit my own disposable trash can so that any trash and waste created by me will leave the premises with me to avoid being handled by someone else.
8. I have palettes and trays available to decant products onto to avoid the products being touched by artists, models/actors and workers.
9. My travel bags, makeup bags, containers and brush belt will be washed and thoroughly sanitized the night before and placed in my car the night before to avoid contact with anyone else in my household.
10. Most importantly I am not sick and don't have any symptoms of the virus as I have made it a point to not leave the house unnecessarily.
